

# SuperClear

SuperClear is a smooth, optically clear polypropylene film engineered to meet the most demanding cosmetic standards. SuperClear has superior dimensional stability and excellent lay-flat characteristics, which allow the film to feed quickly and reliably through sealing machinery, sheeters, and printing presses. It is an exceptional material for use in the construction of media storage cases and office supply products.

## APPLICATIONS:

- VHS and DVD cassette label covers
- CD sleeves
- Printing / graphics applications
- Labels
- Photo album pages
- Coin, stamp, and baseball card holders
- Business card holders
- Sheet protectors
- L-pockets
- Flat files
- Book covers
- Menu covers
- Artist portfolio cases
- Cold lamination film

## ADVANTAGES:

- Optical clarity
- Smooth, high gloss surface
- Easy to print using a variety of methods including screen printing, offset lithography, and flexography
- Good dimensional stability and lay-flat characteristics
- Easy to coat with adhesives
- Copy safe - will not lift print
- Acid free - contains no PVC
- Easy to weld using either ultrasonic or thermal welding machinery
- Excellent chemical resistance
- Natural living hinge ability
- Economically priced
- Recyclable

## MANUFACTURING CAPABILITIES:

- Clear film is standard
- Custom colors are available upon request
- In-line corona treatment
- Thickness range: 1 mil to 5.5 mil thick
- Standard web widths: 56" - 93"
- In-line slitting to custom roll widths
- Biodegradable available
- FDA compliant grades available
